

Compassionate Hospice Care for Veterans

Each year, one in every four deaths is a military Veteran. Most of these individuals are not enrolled in Veterans' benefits programs and may be unaware of end-of-life services and benefits available to them.

Oxford HealthCare Hospice is honored to partner with the We Honor Veterans program, conducted by the National Hospice and Palliative Care Organization (NHPCO) in collaboration with the Department of Veterans Affairs (VA). We strive to understand the unresolved grief of Veterans, and provide the end-of-life care they need and deserve. Some of the benefits for Veterans and their families offered by Oxford include:

- *Caring and compassionate staff, extensively trained for Veterans' specialized needs*
- *Volunteer staff of Veterans, who understand and can share their unique experiences*
- *Guidance in establishing patient goals and care plans*
- *Respect and recognition of the Veterans' service*
- *Help with documenting and preserving the Veteran's life story for family members*
- *Advanced care planning and completion of advanced directives*
- *Special benefit resources for the Veteran, their spouse and family*

Oxford HealthCare Hospice is committed to meeting the sensitive end-of-life needs of Veterans and their families. Contact us today for focused care in honoring their service and sacrifice.
